

High Growth Portfolio

Management Fee: 0.80% * Refer to PDS for additional fees that apply to this product

Minimum Investment: \$1,000

Portfolio Managers: HMH Financial Services Pty Ltd

Portfolio Objective:

The objective of this portfolio is to maximise total returns for investors who are prepared to accept a high level of volatility along the way. There are no defensive assets in the high growth portfolio, however keep in mind that we don't seek out high risk investments either, just the ones with great potential to perform long-term.

The High Growth portfolio aims to invest 100% in growth assets (e.g., equities and property) with no exposure to defensive assets meaning capital stability is not a consideration.

If you are comfortable with market volatility and are willing to take a long-term approach with the potential to turbocharge your wealth, then sit back and let hmh onlineinvest put your hard earned money to work!

What makes hmh onlineinvest great ?

- We do all the research for you and manage the portfolios on an ongoing basis, consistent with our views on markets and changes in global trends.
- Our team has decades of investing experience, vast contacts & research resources to give you an investing edge!
- Our portfolios are a diversified investment solution.
- Our platform is easy to use and you can login to track your investment/s at any time.
- Our portfolios are open to all investors, from individuals to Self-Managed Super Funds.
- By managing your investments through one portal, we take all the administrative hassles out of your hands. From tax paperwork, to changing address, bank details or setting up regular investments/withdrawals, everything is quick and easy to manage!
- Your funds are easily accessible, should you require liquidity from your investment.

Our outlook for markets is continued long term growth. As always, there are short term risks that our experienced team are monitoring and managing through our diversified portfolios. The most successful investors can build substantial long-term wealth by utilising hmh onlineinvest through time in the market, not timing the market!
